Welcome to FDI / FTC Workshop

Advanced FDI/FTC in future European Commission Framework Program

In recent years, driven by the strongly increasing needs for highly reliable and safe technical systems, advanced FDI/FTC and relevant technologies like re-configurable systems, real time software reconfiguration, distributed systems are receiving remarkable attention in major European industrial sectors and in research.

This workshop is dedicated to reviewing the state of the art of the advanced FDI/FTC and relevant technologies and to brainstorming for the challenging topics in these fields which could be included in the future EC-framework program.
